No problem, it's worth noting that this will be re-evaluated based on the new nutrients method. So you might want to let the Discharger know that this excel file (and the fact sheet) will be revised significantly, and the results may change.

Thank you,

Dan Connally

Hi Dan,
Sorry to bother you, but please forward me the ZOM worksheet you used for Kailua.
Thanks!
Kris

Subject: Kailua RWWTP draft NPDES Permit - nutrient exceedences at the ZOM

Hi Kris and Darryl,

Pages 18 and 19 of the Kailua draft Fact sheet indicate several exceedences of the Hawaii water quality standards for ammonia, nitrite + nitrite and total phosphorus at the ZOM. Can you provide us with the Excel sheet with the data inputted used to derive these

conclusions?

Thx.

CJ

P.S. I approach the permit writer directly but he reminded me that I should go to DOH first.
